Creating Modern  
Outdoor Living Space with  
**Contemporary Landscape Design**

## Creating Modern Outdoor Living Space with Contemporary Landscape Design

**C**ontemporary landscape design is a relatively new garden style that complements modern architecture and is just as unique as the structures it surrounds. Near the end of the 1950's, new styles in architecture brought about a more modern style of landscaping to match it.

Vivid colors and abstract patterns, combined with unique uses of lighting, textures, and space, create an outdoor space that magnifies the beauty of nature with the sophistication of modern living.

Diminishing yard space in today's affluent communities and the rushed, fast-paced lifestyle of present day society have made trends toward modern garden design even more popular. Contemporary landscape design is creative and chic with a variety of options that are ideal for all types of yards.

### Tips to Go Green at Office

- Set your printer to double-sided copies to save paper.
- Make hard copies only when necessary.
- View documents on your computer instead of printing them out.
- Remove your phone charger from the power point when not in use, as it continues to consume up to 40 percent of the current used to charge your phones.

- Set your computer to sleep if you are away from your desk for more than 10 minutes, which reduces power consumption to about 5 percent of full operating power.
- Look to maximize the natural light in your office, rather than relying on artificial light.

**T**his courtyard was designed for a commercial building which is in Salem city to create a spread successful revelation incorporate color spreading, component combination, design blend involvement and design plan insight, which the entire piece unite together to build brilliant contemporary. The two main focuses of this project were : comfort in the urban center and commercially appealing identity. The investment was limited to the minimal in the continuous business plan.

This space satisfies people with metro lifestyles and offers them a rest area which is as practical and friendly as the shadow beneath a large trees. Pebble was the concept of its contemporary landscape design in the centre for the truly comfortable ambience amongst nature.
